Dear Greg Poland, thanks for your kind words and thoughtful letter. Reverse explains why I can take time for long responses. If you paper can see an issue in Church in the campaign and not in Ford it is a lost cause...My ownexperience tells me that the kind of committee you propose, logical as it is, will not come about and if it did would probably wind up hurting. Those who have selfish and personal interests and ambitions have a way of taking these over and guiding them inself-promotion.Besides, there are few real experts on fact and those with the biggest reputations know least, substituting glib attractive substitutes. This has been on ~~the~~ of the greatest handicaps and impediments in the Congress for the past year...The time for inconsistencies also is past. Anybody in authority will, today, give another of the well-known ones a serious thought. ...When the Congress would not use Post Mortem's contents this was, I believe, a bad sign. So other approaches are required. To the degree possible I'm pursuing these in court. If they do not bring this about they will help build the record that can...To be effective in an election year the stuff on Ford would have to be scandalous. It then would not be used. When you read what I have on him in Whitewash IV and recall that no single major paper of wire-service referred to it, you can better appreciate this. A few minor publications ripped it off...Until we have a combination of the right time and the right situation, I think the best thing individuals can do is inform themselves and keep the pressure on politicians and media...Oswald in New Orleans is out of print. I did not print it. In second-hand stores it is brining $50. Replacement cost to me is the price I ask of the few genuine scholars I let know I have obtained a few copies. It is $21. Again thanks, sincerely. HW 5/25/76
